(CHARUSAT), CHANGA – 388 421
Chandubhai S. Patel Institute of Technology
CHAMOS Matrusanstha Department of Mechanical Engineering
Event Report

Name of Event	:	Fluid Mechanics Project Competition-2026
Date and Time of Event	:	04-04-2024 to 04-04-2024 (09:00 am to 11:30 am)
Event Convener		Dr. Vijay Chaydhary
Event coordinator	:	1. Dr. Dattatraya G. Subhedar 2. Dr. Kamlesh V. Chauhan Dr. Bhavin Mehta

Summary of the Event (Maximum 200 words):

The CHAMOS Matrusanstha Department of Mechanical Engineering organized a Fluid Mechanics Project Competition for 4th semester B.Tech students on 4th April 2026 from 09:10 AM to 11:10 AM. The event aimed to enhance conceptual understanding through practical implementation and provide a platform for showcasing innovative fluid mechanics projects.

A total of 48 groups comprising 93 students participated enthusiastically. Students developed and demonstrated working models based on concepts such as Bernoulli's theorem, vortex flow, surface tension, capillary action, hydrostatic law, wind tunnel applications, flow visualization, pipe losses, metacentric height, and buoyancy. These projects effectively connected theoretical knowledge with real-world applications. Projects were evaluated by faculty based on innovation, technical accuracy, functionality, presentation, and problem-solving approach. The Cyclone Dust Collector project secured the Winner position, while Venturi Injector, Peristaltic Pump, and Water Jet Machining projects achieved Runner-up positions. The competition enhanced students' practical knowledge, analytical thinking, and teamwork skills. It also improved communication, presentation confidence, and encouraged creativity and innovation.

Overall, the event successfully bridged the gap between theory and practice, providing a valuable learning experience and preparing students for future engineering challenges.
