Message from the Dean's Desk

I am pleased to share some of the exciting developments at the Chandubhai S. Patel Institute of Technology (CSPIT) through this issue of our newsletter, "ENGINEERING INSIGHTS."

The newsletter will focus on the inside activities, viz. academics, achievement of students and staff members as well as innovation occurring in the departments. In the era of engineering and technology, this newsletter will motivate the staff members and students on sharing their creativity and new ideas with the world and will help in their overall development.

As the saying goes by "**Coming together is a beginning, keeping together is progress and working together is success**". We hope that the readers find the issue informative and useful. I once again congratulate everyone for this issue of newsletter and wish the CSPIT a grand success.

Dr. Vijay Chaudhary
Dean, FTE

Message from Principal's Desk

I am delighted to present the fifth issue of "ENGINEERING INSIGHTS", the quarterly newsletter of Chandubhai S. Patel Institute of Technology (CSPIT). This edition continues to showcase the vibrant activities, innovative initiatives, and remarkable achievements of our students and faculty in recent months. With a supportive management, experienced, dedicated and committed teaching and non-teaching staff, excellent infrastructure and upgraded facilities, the institution has achieved outstanding success since its inception in year 2000. The institute now strives and aspires to be a Centre of Excellence.

We are grateful to our Honourable Provost, Respected Registrar, distinguished Management members, Dean and Head of Departments for their constant support and encouragement. I express my sincere and heartfelt thanks to all the stakeholders staff members, students and parents who have co-operated and contributed towards the realization of our vision, mission and dreams. Let us march wholeheartedly in the journey towards actualization of our objectives and goals.

I would like to launch this issue with a quote "**The obstacles of the past can become the gateways to new beginnings, even a loss provides the polished direction of winning**".

Dr. Trushit Upadhyaya
Principal, CSPIT

Satyanarayan Katha: A Day of Divine Blessings and Devotion

EVENTS AND ACHIEVEMENTS

Endowment Chair Activity : Artificial Intelligence in Healthcare: Listening to Heart and Advanced Digital System Design Techniques and Applications

The V. T. Patel Department of Electronics & Communication, CSPIT, CHARUSAT, organized an Endowment Chair Activity featuring Dr. Goutam Saha, Professor, Department of Electronics and Communication Engineering, Indian Institute of Technology Kharagpur, who was invited as an Endowment Chair expert. Held from September 23–25, 2026, the activity covered artificial intelligence, digital system design, neuroscience, voice biometrics, and research collaboration. On September 23, the sessions addressed “Artificial Intelligence in Healthcare: Listening to Heart” and “Advanced Digital System Design Techniques and Applications”, highlighting AI applications in healthcare and advanced digital systems. On September 24, the topics included understanding brain through Neurosignal Analysis in Digital Domain and beyond spoken words: Use of Voice as a Biometric, exploring neurosignal analysis and voice-based biometric applications. On September 25, an interactive session with faculty members focused on research collaboration opportunities, encouraging academic discussion, knowledge exchange, and potential collaborative initiatives.

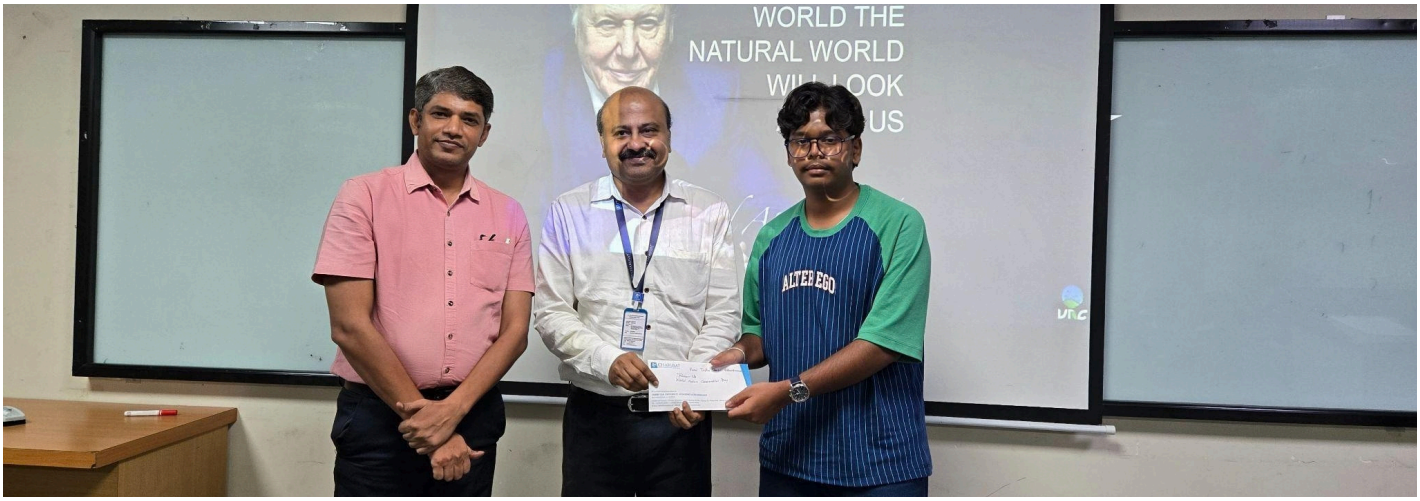
Roadmap to Cybersecurity Career and Future Opportunities - Club Activity

The Department of Computer Science and Engineering, CSPIT, CHARUSAT, organized an industry talk titled “Roadmap to Cybersecurity Career and Future Opportunities” on July 22, 2026, featuring Mr. Kunal Dutt, Senior Consultant at Tribastion Technologies, Ahmedabad. The session provided insights into the evolving cybersecurity landscape, essential technical skills, industry tools, certifications, career pathways, and professional opportunities. An interactive question-and-answer session enabled students to seek guidance on skill development and industry expectations. The talk served as an effective platform for industry–academia knowledge exchange and enhanced students’ awareness of career opportunities in cybersecurity.

From Prompt to Production: A Hands-on Workshop on Claude Code, AI Coding Agents and Context Engineering

The Smt. Kundanben Dinsha Patel Department of Information Technology, CSPIT, CHARUSAT, organized an Industry-Oriented Hands-on Workshop titled “From Prompt to Production: A Hands-on Workshop on Claude Code, AI Coding Agents and Context Engineering” on July 22, 2026. The workshop was conducted by Mr. Ritesh Vajariya, Founder and CEO of AI Guru, Ahmedabad and provided practical exposure to Claude Code, AI coding agents, prompt engineering, and context engineering. Through hands-on activities, participants explored AI-powered software development workflows and learned to transform ideas and prompts into practical solutions. The sessions also highlighted the importance of effective context management, iterative development, and AI-assisted coding in building reliable software applications. Participants gained valuable insights into integrating AI coding tools into real-world development processes and adapting industry requirements. The workshop enhanced their technical knowledge and awareness of emerging AI-driven industry practices.

Celebration of World Nature Conservation Day 2026



Promoting environmental awareness and biodiversity conservation, the Green Club of the M. S. Patel Department of Civil Engineering, CSPIT, CHARUSAT, organized “World Nature Conservation Day 2026” on July 28, 2026. The event featured a Nature Photography Contest and an expert talk on biodiversity conservation and environmental sustainability. Mr. Anirudh Vasava, Conservation Practitioner and Executive Director of Voluntary Nature Conservancy, Vallabh Vidyanagar, and Dr. Mandar Kulkarni, Assistant Professor at PDPIAS, CHARUSAT, shared valuable insights into wildlife conservation, ecosystem protection, human–wildlife coexistence, and community participation. The photography contest encouraged participants to appreciate and creatively document local biodiversity, fostering environmental awareness, creativity, and a deeper understanding of nature conservation. The event emphasized collective responsibility for protecting natural resources and promoting sustainable practices for future generations.

ELECTROQUEST: Hands-on Workshop on Basic Electrical Circuits

Encouraging experiential learning and practical skill development, the M & V Patel Department of Electrical Engineering, CSPIT, CHARUSAT, organized "ELECTROQUEST: Hands-on Workshop on Basic Electrical Circuits" on July 30, 2026, for first-year B.Tech. students. The workshop introduced fundamental electrical engineering concepts through practical demonstrations and interactive activities. Participants gained hands-on experience in assembling basic electrical circuits, including clap switches, fire alarms, light-dependent resistor (LDR)-based light detectors, and remote testers. Demonstrations of electric vehicles and surveillance drones offered insights into innovative electrical applications. The workshop strengthened participants' practical knowledge, technical skills, and understanding of electrical engineering principles.

Barracks WarGames 2026 – International Application Security Championship - Club Activity

Highlighting excellence in cybersecurity and practical application security, the Cyber Security Club of the U & P U. Patel Department of Computer Engineering, CSPIT, CHARUSAT, organized "Barracks WarGames 2026 – International Application Security Championship" on August 13–14, 2026, in collaboration with Barracks Technologies LLP. The international application security championship provided hands-on exposure to vulnerability hunting, penetration testing, bug bounty practices, and AI security. CHARUSAT teams delivered an outstanding performance, with 23 teams securing positions in the top 30 and the university achieving second place overall. The competition also recorded more than 800 bug reports, demonstrating active engagement in identifying security vulnerabilities. The event strengthened participants' practical cybersecurity skills, problem-solving abilities, and industry readiness.

MathFlow AI - Club Activity

The Department of Artificial Intelligence and Machine Learning, CSPIT, CHARUSAT, organized an activity under the MathFlow AI Club on August 17, 2026, to strengthen students' mathematical foundations and explore the role of mathematics in artificial intelligence and machine learning. The initiative highlighted the importance of concepts such as linear algebra, calculus, probability, and statistics in developing and understanding AI and ML models. Through interactive learning and problem-solving, participants explored the connection between theoretical mathematical knowledge and practical AI applications. The activity aimed to enhance analytical thinking, logical reasoning, and a deeper understanding of the mathematical principles underlying intelligent systems. It also promoted collaborative learning and emphasized the importance of mathematics in addressing real-world challenges using AI and ML techniques.

Mic Drop 1.0 – Speak. Impact. Inspire.

The Smt. Kundanben Dinsha Patel Department of Information Technology, CSPIT, CHARUSAT, organized "Mic Drop 1.0 – Speak. Impact. Inspire", a university-level public speaking and storytelling competition, on August 19, 2026, through the Eloquence Club. The event provided undergraduate students with a platform to enhance creative thinking, communication skills, confidence, and public speaking abilities. The competition featured two rounds focusing on impromptu storytelling and prepared storytelling, encouraging participants to demonstrate imagination, expression, adaptability, and stage presence. The event also promoted interaction among students from diverse academic backgrounds and encouraged them to express their ideas confidently while overcoming hesitation.

YUKTI Idea Submission Drive 2026

The M. S. Patel Department of Civil Engineering, CSPIT, CHARUSAT, organized the "YUKTI Idea Submission Drive 2026" from July 23, 2026 to August 24, 2026, to promote innovation and entrepreneurship among students, faculty members, researchers, and innovators. The initiative provided a platform for participants to submit innovative ideas to the YUKTI Innovation Repository, an initiative of the Ministry of Education (MoE). The drive encouraged interdisciplinary participation and offered opportunities for incubation, intellectual property rights (IPR) support, and funding, while helping participants strengthen their academic and professional profiles. Cash awards were presented to the top three submissions based on their originality and potential impact, recognizing promising ideas and fostering a culture of innovation and entrepreneurship at CHARUSAT. The initiative also motivated participants to identify real-world challenges and develop creative, practical solutions with the potential for societal and industrial impact.

Workshop on Building Intelligent AI Applications: From LLMs and RAG to AI Agents

The Department of Computer Science and Engineering, CSPIT, CHARUSAT, organized a two-day hands-on workshop titled "Building Intelligent AI Applications: From LLMs and RAG to AI Agents" on September 11–12, 2026. The workshop was conducted by Mr. Tarun Jain, Founding Engineer at a Stealth Startup, Bangalore, Google Developer Expert in AI, and Content Creator. Participants gained practical exposure to Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI Agents, and industry-oriented AI application development through interactive sessions, demonstrations, and hands-on activities. The workshop enhanced students' technical knowledge, problem-solving skills, and understanding of emerging AI technologies, with over 80% of participants reporting improved understanding of the concepts covered.

Workshop on Using AI for Fundraising & Investor Pitch Preparation

The M & V Patel Department of Electrical Engineering, CSPIT, CHARUSAT, organized a workshop titled "Using AI for Fundraising & Investor Pitch Preparation" on September 15, 2026. The workshop was conducted by Dr. Mrugendrasinh Rahevar from the Department of Computer Engineering, CSPIT, CHARUSAT and focused on the practical applications of AI tools such as ChatGPT, Gemini, Claude, and Perplexity for developing startup ideas and preparing effective investor pitches. Through the AI-Assisted Investor Pitch Challenge, participants used these tools to refine their problem statements, proposed solutions, target markets, business models, competitive advantages, funding requirements, and overall investor pitches. The workshop enhanced students' entrepreneurial thinking, AI proficiency, and understanding of startup development and fundraising practices, while encouraging them to leverage AI tools to transform innovative ideas into compelling business proposals.

Workshop on Flutter From Basic To App Development

The Department of Artificial Intelligence and Machine Learning, CSPIT, CHARUSAT, organized a workshop titled "Flutter From Basic to App Development" on September 17, 2026. The workshop was conducted by Mr. Utsav Patel, Senior Business Analyst (BPM - Energy), Ahmedabad, who introduced students to the fundamentals of Flutter and its applications in mobile app development. Participants explored Flutter basics, its development environment, and the process of designing and developing mobile applications. Through demonstrations and practical exercises, they gained insights into creating user interfaces, understanding application structure, and implementing essential features. The session effectively bridged the gap between theoretical knowledge and practical application by familiarizing students with modern cross-platform app development techniques. The workshop strengthened students' technical skills, encouraged hands-on learning, and highlighted the role of Flutter in developing efficient, responsive, and user-friendly mobile applications.

Fluid Mechanics Project Exhibition–2026

The CHAMOS Matrusanstha, Department of Mechanical Engineering, CSPIT, CHARUSAT, organized the Fluid Mechanics Project Exhibition – 2026 on September 26, 2026. The exhibition provided a platform for B.Tech. Mechanical Engineering students to showcase 39 innovative working models and projects demonstrating the concepts and applications of Fluid Mechanics. Students from D. Z. School, Anand, also visited the exhibition and gained practical insights through interactive demonstrations. The event promoted experiential learning, creativity, technical skills, and knowledge sharing while encouraging students to connect theoretical concepts with real-world engineering applications. It also fostered innovation and teamwork among students and offered visitors an opportunity to explore the practical relevance of fluid mechanics in various engineering systems. Overall, the exhibition strengthened students' confidence in presenting technical ideas and encouraged them to develop innovative solutions to practical engineering challenges.

Expert Talk on Inside the Embedded Industry: Skills, Roles and Career Opportunities for EC Engineers

The V. T. Patel Department of Electronics and Communication Engineering, CSPIT, CHARUSAT, organized an expert talk titled "Inside the Embedded Industry: Skills, Roles and Career Opportunities for EC Engineers" on September 26, 2026. The session was delivered by Mr. Satish, CEO of SiliconSignal Pvt. Ltd., Ahmedabad. The talk provided students with insights into the embedded systems industry, covering Embedded C/C++, microcontrollers, ARM, RTOS, Embedded Linux, communication protocols, debugging, and hardware-software integration. The session also highlighted career opportunities, industry expectations, project development skills, and interview preparation, helping students understand the technical competencies required to build successful careers in the embedded domain.

Expert Talk on Selected Areas in Communication Systems

The V. T. Patel Department of Electronics & Communication, CSPIT, CHARUSAT, organized an offline expert lecture titled “Selected Areas in Communication Systems” on September 26, 2026, for third-semester B.Tech. Electronics and Communication Engineering students as part of the Communication Systems course. The session was delivered by Professor (Dr.) Yogesh Trivedi, Ph.D. from IIT Kanpur, of Nirma University, Ahmedabad. The lecture provided valuable insights into advanced concepts and emerging technologies in modern communication systems. It aimed to simplify complex communication concepts and bridge the gap between theoretical knowledge and practical industrial and research applications. The session also encouraged students to explore recent developments in communication engineering and strengthened their understanding of the subject’s relevance to emerging technological advancements.

Workshop on Beyond the Blueprint: Engine Anatomy in Action

The CHAMOS Matrusanstha, Department of Mechanical Engineering, CSPIT, CHARUSAT, under the SAEINDIA Student Chapter, organized a technical workshop titled “Beyond the Blueprint: Engine Anatomy in Action” on September 29, 2026. The workshop was conducted by Mr. Aryan Vaghela, Founder of A W Customs, Ahmedabad, a company specializing in classic car restoration. Through a hands-on demonstration using a KTM 390 engine, participants gained practical insights into engine components, their arrangement, and the complete working process, from fuel intake to power generation and output. The workshop helped students connect theoretical concepts with real-world engineering applications and enhanced their understanding of engine mechanisms and automotive technology. It also encouraged students to explore career opportunities in Automobile Engineering and highlighted the importance of practical knowledge in understanding modern engine systems.

Student Spotlight : Rising Stars

Runners-Up in 22North Product Engineering Challenge 2026

Dhairya Shah (23CE130), a student of the Department of Computer Engineering, secured the Runners-Up position in the 22North Product Engineering Challenge 2026, organized by Phonon Communications Pvt. Ltd., Vadodara. Held on July 04, 2026, the competition recognized his strong technical expertise and product-engineering skills. He was awarded a cash prize of ₹25,000 for his outstanding performance. This achievement reflects his technical proficiency, and bringing pride to the department and the institution.

Outstanding Achievements at the IBM BOB AI Hackathon
Winner | 1st Runner-Up | 2nd Runner-Up

The students from the Department of Computer Science and Engineering Om Rashiya (24CS084), Bharvada Yash Sanjaybhai (23CS006), Shah Purva Manishkumar (24CS094), and Desai Nikunj Pareshbhai (24CS016) participated in the IBM BOB AI Hackathon, demonstrating outstanding innovation, technical expertise, and problem-solving skills. In recognition of their achievements, the team won a cash prize of ₹30,000.

The students from the Department of Computer Science and Engineering Dhrumil Nirenkumar Amin (24CS005), Chhatrola Parva Prakash (24CS013), Heet Rakesh Parikh (24CS058), and Patel Akshat Mehulkumar (24CS060) secured the 1st Runner-Up position at the IBM BOB AI Hackathon, demonstrating outstanding innovation, technical expertise, and problem-solving skills. In recognition of their achievements, the team received a cash prize of ₹25,000.

Team PC Pirates from the Smt. Kundanben Dinsha Patel Department of Information Technology, led by Naitik Patel (24IT071) and comprising Brij Patel (24IT063), Rudra Dodiya (24IT016), and Diya Shah (D25IT118), secured the 2nd Runner-Up position in the IBM BOB AI Hackathon, organized by IBM and CHARUSAT. The team successfully progressed through multiple rounds, competing among 78 shortlisted teams, and reached the final pitching round. The team received a cash prize of ₹20,000 in recognition of their outstanding performance.

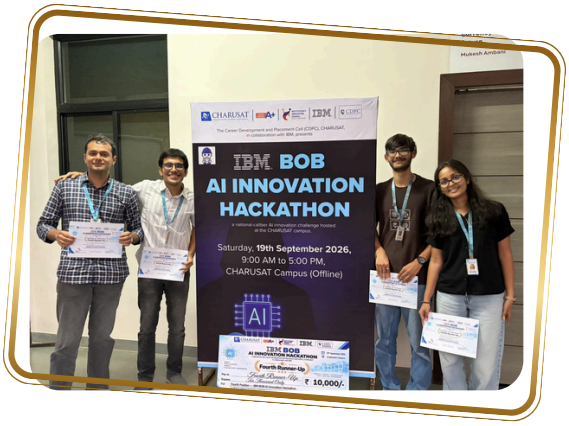
Team Esports Secures 1st Rank at Valorant Campus Cup 2026

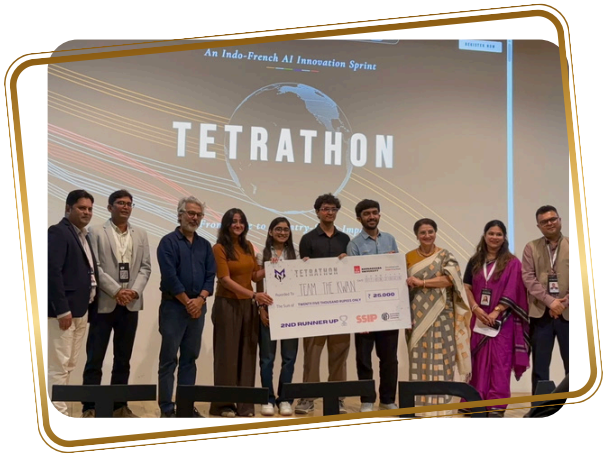
Team CHARUSAT Esports, comprising Dhairya Patel (24EC096), Preet Patel (24CE091), Jash Mandani (24PGCE011), Sneh Shah (24DCS121), and Priyansh Panchal (24DCS063), secured the 1st Rank at the Valorant Campus Cup held at Karnavati University, Gandhinagar from September 25 – 26, 2026. Organized by Jio Blast in association with Riot Games, the tournament showcased the team's exceptional strategic coordination and teamwork. In recognition of their achievements, the team received a cash prize of ₹5,000 and successfully qualified for the National Qualifiers.

Student Spotlight : Rising Stars

4th Runner Up in IBM BOB AI Hackathon

The students from the Department of Computer Science and Engineering Aaleya Boxwala (23CS013), Lakhataria Shrey Manish (23CS039), and Modh Kathan Ketankumar (23CS046) secured the 4th Runner-Up position at the IBM BOB AI Hackathon, showcasing their innovation, technical expertise, and problem-solving abilities. In recognition of their achievements, the team received a cash prize of ₹10,000.





2nd Runner Up in TETRATHON Hackathon

The students from the Department of Artificial Intelligence and Machine Learning Khushi Vadadoriya (24AIML071), Have Patel (24AIML036), Rudra Prajapati (24AIML053), and Diya Patel (24AIML034) secured the 2nd Runner-Up position at the Tetrathon Hackathon, organized by Navrachana University, Vadodara in partnership with NeoFolks and powered by the IndiaAI Mission. In recognition of their outstanding performance, the team received a cash prize of ₹25,000, showcasing their innovation, technical expertise, and problem-solving skills.

2nd Runner Up in CHAOS 2 COMMIT

The students from the Department of Artificial Intelligence and Machine Learning Tirth Bhanderi (D25AIML081), Manan Panchal (24AIML024), Nil Lad (24AIML020), and Ansh Dhanani (24AIML006) secured the 2nd Runner-Up position at CHAOS 2 COMMIT, organized by the Department of Computer Science and Engineering, CSPIT, CHARUSAT, in collaboration with Futurrizon Technologies Pvt. Ltd., Ahmedabad, and in recognition of their outstanding performance, the team received a cash prize of ₹20,000, demonstrating their innovation, technical expertise, and problem-solving skills.

Students Shine at KANAD S.H.I.E.L.D.

Gaurav Kolhe (D25AIML079), Dhairya Mehta (D25DCS155), and Rucha Gandhi (24DCS025) secured Consolation – 2 at KANAD S.H.I.E.L.D., organized by the Cyber Crime Branch, Ahmedabad City Police, in collaboration with Karnavati University, Gandhinagar. The team was awarded a cash prize of ₹25,000 in recognition of their technical expertise, innovative approach, and commitment to cybersecurity.

Student Spotlight : Rising Stars

Winner At SHILP '26

The students from the Department of Civil Engineering Sangani Mudit Shaileshbhai (25CL061), Vekariya Poorvak Prakashbhai (25CL072), and Adarsh (D26CL078) secured the Winner position at SHILP'26, a national-level technical fest organized by Vishwakarma Government Engineering College (VGEC), Chandkheda, Ahmedabad, demonstrating their technical excellence, innovation, and problem-solving abilities.

Runner Up At BRIDGE IT, Nirma University

The students from the Department of Civil Engineering Sarju Bodar (25CL003), Shreyansh Dihora (25CL006), Yaksh Patel (25CL046), Lerry Sureja (25CL069), Priyanshi Hirpara (25CL014), and Mahi Matariya (25CL025) secured the Runner-Up position in the technical event "BRIDGE IT" at Nirma University, Ahmedabad, showcasing their technical knowledge, teamwork, innovation, and problem-solving skills.

Representation of Gujarat Directorate at All India Thal Sainik Camp (AITSC) 2026

The student from the Department of Mechanical Engineering, Shrey Shah (25ME109), an NCC Cadet, successfully completed the prestigious national-level NCC camp and represented the Gujarat Directorate at the All India Thal Sainik Camp (AITSC) 2026, held in New Delhi from September 1 to September 12, 2026, demonstrating discipline, dedication, leadership, and a strong commitment to national service.

Outstanding Achievement at the n8n Community Hackathon: Winners and 1st Runner-Up

The Department of Artificial Intelligence and Machine Learning proudly celebrates the outstanding achievements of its students at the n8n Community Hackathon, organized by CMPICA, CHARUSAT, in collaboration with the n8n Community. Yash Davda (23AIML012) and Dharm Gabani (24CE030) secured the Winner position, receiving a trophy and a cash prize of ₹10,000, while Trivedi Anshu (23AIML072) and Mehta Dhyan (23DCS061) achieved the 1st Runner-Up position and receiving a cash prize of ₹7,000.

Celebrating Excellence : Faculties Achievements

Prof. Dhara Solanki achieved the title of Learning Marathoner on Coursera, reflecting her dedication to continuous learning, professional development, and academic excellence through consistent engagement in online courses.

Dr. Priteshkumar Natavarlal Prajapati successfully recertified as an Associate Cloud Engineer, reflecting his expertise in cloud technologies, commitment to continuous professional development, and dedication to staying updated with industry-relevant advancements.

Dr. Mihir Bhatt achieved the Top 1% position and earned the Elite + Silver Certificate in the SWAYAM–NPTEL course “Advances in UHV Transmission and Distribution,” reflecting outstanding academic performance and excellence in the field of electrical engineering.

Dr. Hardik Modi achieved a Top 5% position and earned the Elite + Silver Certificate in the SWAYAM–NPTEL course “Technical Communication for Engineers,” reflecting his academic excellence and commitment to enhancing professional communication skills.

Prof. Dipaliben Patel achieved a Top 5% position in the SWAYAM–NPTEL course “Project Planning & Control,” reflecting her academic excellence and commitment to enhancing her knowledge and skills in project planning and management.

Prof. Poonam Thanki secured a position in the Top 5% of learners in the SWAYAM–NPTEL course “System Design Through Verilog,” highlighting her dedication to academic achievement and her expertise in digital system design and Verilog-based hardware implementation.

Celebrating Excellence : Faculties Achievements

Prof. Hemang Thakar secured a position in the Top 5% of learners in the SWAYAM–NPTEL course "Theory of Computation," showcasing his dedication to academic excellence and his strong understanding of computational theories and the fundamental principles of computer science.

Dr. Punit Patel received the Coursera Award under the "Lifelong Learner" category, recognizing his dedication to continuous learning, professional growth, and lifelong pursuit of knowledge through online education.

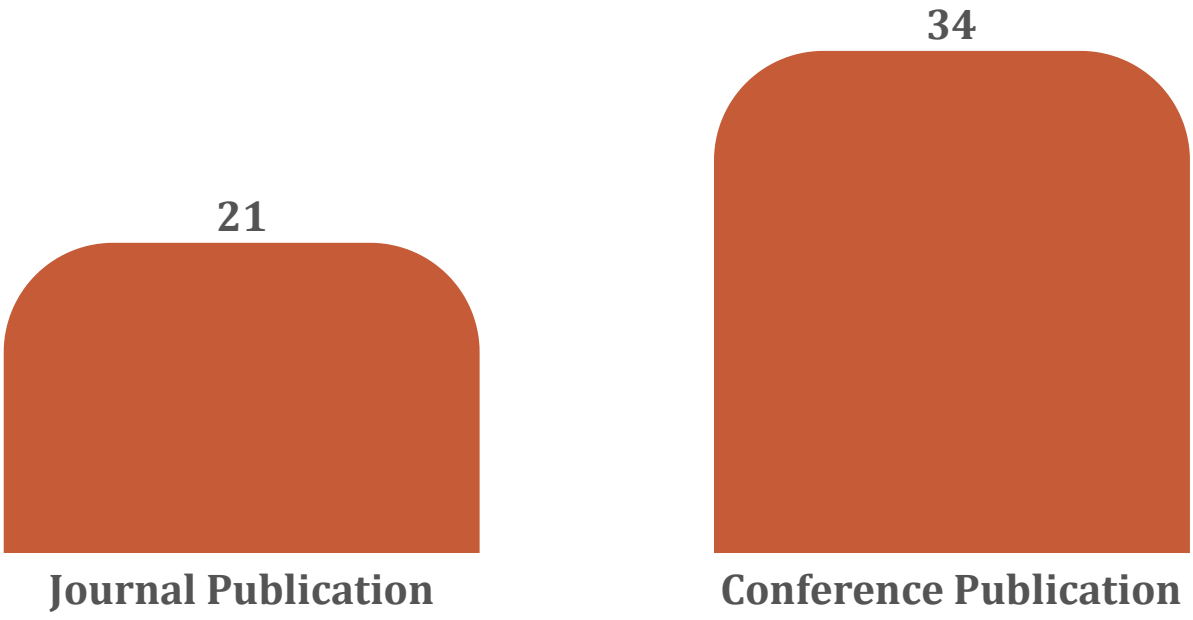
Dr. Bhavin Mehta and his co-authors received the Best Paper Presentation Award at ICAiSEM 2026 for their research paper titled "Recent Advances in Nanofluids: Thermophysical Properties, Stability, Heat Transfer Enhancement, and Future Perspectives," recognizing their research contributions and academic excellence.

Dr. Dattatraya G. Subhedar and his co-authors received the Best Paper Presentation Award at ICAiECSM 2026 for their research paper titled "India's Gas Independence: Risks, Resources, and the Road to 2045," recognizing their collaborative research efforts and academic contributions.

Prof. Viral Panara and his co-authors received the Best Paper Presentation Award in the Research Scholar Category at ICAiSEM 2026 for their paper "Defect Identification in Metal Foams Manufactured Using Powder Metallurgy and Space Holder Method."

Dr. Dattatraya Subhedar, Dr. Akash Vyas ,recognized among the Top Ten CHARUSAT Performers at "बोधसृजन 1.0: The Craft of Creating Understanding," the National Symposium on Innovative Pedagogy and Assessment Practices.

Academic Publications Analysis: Indexed Achievements in Research



During the academic period from July 2026 to September 2026, CSPIT continued to demonstrate its commitment to research excellence, academic innovation, and knowledge creation through the scholarly contributions of its faculty members and researchers. During this period, the institute recorded 21 journal publications and 34 conference presentations/publications, reflecting the active engagement of faculty and research scholars in advancing knowledge across diverse domains of engineering and technology. These achievements highlight CSPIT's continued efforts to promote a strong research culture and encourage the dissemination of quality research through reputed academic platforms. Faculty members and researchers actively participated in conferences, research forums, and academic platforms, providing opportunities to share innovative ideas, present research findings, and engage with the broader academic community. Such scholarly contributions enhance the academic profile of the institute while fostering interdisciplinary collaboration, innovation, and the development of solutions to contemporary societal and technological challenges. The research activities during this period reflect CSPIT's commitment to nurturing an environment that encourages curiosity, critical thinking, experimentation, and impactful research. Furthermore, these accomplishments strengthen the institute's academic networking and enhance its visibility at national and international levels. Overall, the research achievements during July 2026 to September 2026 reaffirm CSPIT's dedication to fostering a vibrant research ecosystem, promoting academic and technological innovation, encouraging faculty and student participation in research activities, and strengthening its position as a centre of academic and research excellence.

Paper Publication in High Impact Factor Journals (Selected)

Dr. Hardik Modi published a research paper titled "Design and Implementation of a Dynamic Power-Aware Secure Processing Architecture on FPGA Using Verilog HDL" in the Ain Shams Engineering Journal, with a JCR Impact Factor of 6.2.

Prof. Satayu Travadi published a research paper titled "Multi-objective Optimization of HDPE Pyrolysis Oil–Diesel Blends Across Variable Compression Ratios: An Integrated Experimental and Ensemble Learning Approach" in the Journal Frontiers in Chemical Engineering, a Web of Science Q2 journal with a JCR Impact Factor of 4.

Dr. Martin Kantilal Parmar has published a research paper titled "Lightweight Blockchain-Edge Security Framework for IoT Smart Spaces: Architecture, Threat Mitigation, and Real-World Validation" in the journal CMES – Computer Modeling in Engineering & Sciences with a JCR Impact Factor of 2.9.

Dr. Mrugendrasinh Laxmansinh Rahevar has published a research paper titled "Quantum Kernels for Text Classification: A Statistical and Diagnostic Framework Revealing the Low-Data Regime" in the journal CMES – Computer Modeling in Engineering & Sciences with a JCR Impact Factor of 2.9.

Dr. Akash Vyas published a research paper titled "Influence of Oxide-Based Face-Coat Materials on Mould Permeability and Interfacial Reactions During AZ91 Magnesium Alloy Investment Casting" in the International Journal of Metalcasting, a Web of Science Q2 journal with a JCR Impact Factor of 2.8.

Dr. Dattatraya Subhedar published a research paper titled " Synthesis of La0.8Sr0.2Co0.9Fe0.1O3-d perovskite oxide catalyst and the geometric modification of a catalytic converter for hydrocarbon and carbon monoxide emission reduction" in the Journal Frontiers in Chemical Engineering , a Web of Science Q2 journal with a JCR Impact Factor of 4.

Dr. Hardik Jayswal and his co-authors published their research paper titled "High-Precision Estimation of Aerosol Optical Depth Using Sentinel-2 Imagery and AERONET Ground Observations" in the International Journal of Intelligent Engineering and Systems, contributing to advancements in remote sensing and environmental monitoring.

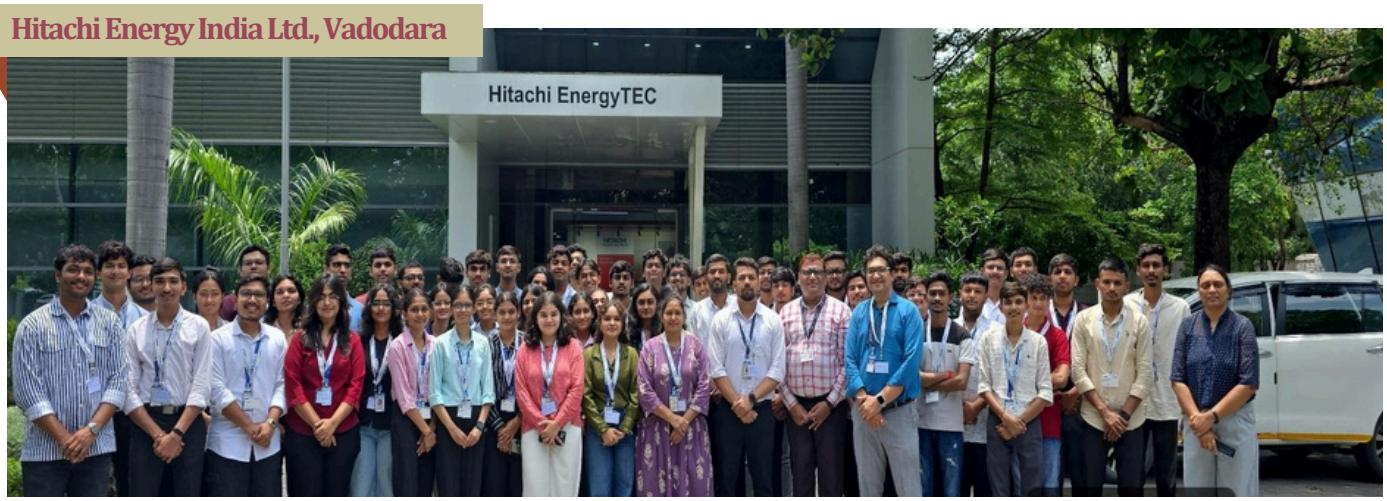
Student Industrial Tours and Visits

Hitachi Energy India Ltd., Vadodara



The M & V Patel Department of Electrical Engineering, CSPIT, CHARUSAT, organized an academic visit to Hitachi Energy India Ltd., Vadodara, on July 28, 2026, to provide students with practical exposure to modern power and energy technologies, manufacturing processes, and industrial operations. The visit helped students understand the practical applications of electrical engineering concepts and gain insights into industry practices. It bridged the gap between theoretical knowledge and real-world engineering applications, enhancing students' technical understanding and industrial awareness. The experience also familiarized students with industrial workflows, technological advancements, and the role of electrical engineers in developing efficient and reliable power systems.

Aimtron Electronics & Muni Seva Ashram, Goraj, Vadodara

The V. T. Patel Department of Electronics and Communication Engineering, CSPIT, CHARUSAT, organized an industrial visit to Aimtron Electronics & Muni Seva Ashram, Goraj,, Vadodara, on August 7, 2026. The visit provided students with practical exposure to Electronics System Design and Manufacturing (ESDM). Students learned about PCB assembly, Surface Mount Technology (SMT), soldering, and PCB cleaning processes. They also observed quality inspection techniques, including X-ray inspection and Automated Optical Inspection (AOI). The visit helped students understand industrial manufacturing procedures and quality control practices. It bridged the gap between theoretical knowledge and practical applications, enhancing students' understanding of modern electronics manufacturing.

Student Industrial Tours and Visits

Wanakbori Thermal Power Station

The CHAMOS Matrusanstha, Department of Mechanical Engineering, CSPIT, CHARUSAT, organized industrial visits to Wanakbori Thermal Power Station on September 15 and 22, 2026, for B.Tech Mechanical Engineering students. The visits provided practical exposure to thermal power generation, major plant equipment, and operational processes. Students gained valuable insights into industrial practices, helping them connect theoretical knowledge with real-world applications and strengthen their understanding of Power Plant Engineering. The visits also highlighted the importance of efficient energy generation, plant operations, and safety practices in the power sector.

Suryadeep Alloy Steel Castings Pvt. Ltd., V. V. Nagar

The CHAMOS Matrusanstha, Department of Mechanical Engineering, CSPIT, CHARUSAT, organized an industrial visit to Suryadeep Alloy Steel Castings Pvt. Ltd., Vithal Udyognagar, Vallabh Vidyanagar, Gujarat, on September 17, 2026, for B.Tech. Mechanical Engineering students. The visit provided practical exposure to foundry operations, metal casting processes, heat treatment, machining, and quality inspection. Students gained valuable insights into industrial manufacturing practices, helping them connect theoretical concepts with real-world applications. The visit also encouraged students to explore career and research opportunities in foundry technology and advanced manufacturing, strengthening their understanding of industrial processes and quality standards.

Student Industrial Tours and Visits

Inflibnet Centre, Gandhinagar

The Smt. Kundanben Dinsha Patel Department of Information Technology, CSPIT, CHARUSAT, organized an academic visit to the Information and Library Network Centre (INFLIBNET Centre), Gandhinagar, on September 24, 2026. The visit provided students with practical exposure to data structuring, data engineering, digital information resources, and technology-enabled academic services. Students gained insights into data processing, machine learning applications, and information management systems. The visit helped bridge the gap between theoretical knowledge and practical applications, enhancing students' understanding of digital technologies and data-driven services.

BISAG-N, Gandhinagar

The Department of Computer Science and Engineering, CSPIT, CHARUSAT, organized an academic visit to BISAG-N (Bhaskaracharya National Institute for Space Applications and Geo-Informatics), Gandhinagar, on September 28 - 29, 2026, for third-semester students. The visit provided practical exposure to space applications, geospatial technologies, and their real-world implementation. Students gained insights into emerging technologies and their applications across various sectors, helping them connect theoretical concepts with practical implementations. The visit also broadened their understanding of the role of space technology and geospatial information systems in addressing real-world challenges and supporting technological advancements.

Empowering Students Through Financial Assistance: UGSF/PGSF's Commitment to Excellence

UGSF/PGSF

Student Fellowship

12 Students

Financial Support

Rs. 102,000

The Undergraduate & Postgraduate Student Fellowship (UGSF & PGSF) provides financial support to help students pursue their academic goals, research projects, and skill development. This assistance allows students to focus on their studies without financial worries. By fostering an inclusive environment, UGSF & PGSF promotes innovation, critical thinking, and professional growth, helping students reach their full potential and contribute to a better future.

University Financial Support for Students Conference Publication

CONFERENCE

Publication

8 Students

Financial Support

Rs. 1,20,000

The university supports students by covering expenses for paper publication and conference participation, including registration fees, travel, and accommodation. This assistance enables students to present their research on national and international platforms, promoting academic growth, knowledge exchange, and networking. By removing financial barriers, the university helps students share their work, gain exposure to advanced research, and build their academic and professional profiles, fostering their research careers and overall success.

STUDENT SUPPORT AND DEVELOPMENT

Supporting Innovative Ideas and Transformative Research : SSIP Funded Project

	PI	Students	Funding Amount
Aura AI	PI: Priyanka Patel	Brij Patel (24IT063)	₹ 1,20,000
Volt Shield Drones	PI: Mihir Bhatt	Ashay Singh (25EE001), Mihir Soni (25EE060), Kavya Patel (25EE011), Aryan Jariwala(25EE015), Arkoprovo Ghosh(25EE013)	₹ 92,000
VELOX AI Custom Voice Agents	PI: Pinal Hansora	Harshil Mistry (D24CS112)	₹ 85,000
IntelliVisionai Transforming Survillience into intelegent decision making	PI: Pratik Panchal	Jayraj Praliya (24EE051), Fenil Sorathiya (24EE062), Riya Rao (24EE054), Dev Chauhan (D25EE072), Vidhi Sutariya (24DCE143), Kashish Shah (24EE058)	₹ 65,000
MachineMitra AI An AI-Powered Industry 4.0 Retrofit Solution for Old MSME Machines	PI: Harshul Yagnik	Rudra Patel (24CS075), Devanshi Patel (25CS059), Hetvi Tank (24CS099), Vaidehi Patel (25CS081), Vraj Kothiya (25EC048)	₹ 60,000
SoleSync AI-Enabled Smart Sole	PI: Gaurang Patel	Mahek Saradya (24AIML056), Mahek Patel (24AIML040)	₹ 48,000
JusticeWon The Complete Digital Journey	PI: Dharmendrasinh Rathod	Dhruv Kava (D25CS111)	₹ 45,000
Agrolaser-Ai	PI: Jalpesh Vasa, Gaurang Patel	Saumya Patel (24AIML045), Patel Yug (24AIML049)	₹ 45,000
Eco Flame Smart Biofuel Stove	PI: Gajanan Patange, Gaurang Patel	Patel Brijesh (D24ME048), Arya Ameri (24ME003), Smit Sureja (24AIML066)	₹ 45,000
Digital Expiry Tracker	PI: Mukti Patel, Niyati Patel	Jiya Sadariya (24AIML054), Harshil Thakkar (24AIML068)	₹ 45,000
GovAssist AI AI Powered Citizen Guidance Platform	PI: Akshita Kadam	Shrusti Chavada(24DCS016), Anushka Shah(25CS097)	₹ 30,000
Dhawat Weight Bearing Feedback Walker	PI: Dhruv Dave, Nirav Bhatt, Gaurang Patel	Dhaval Panchal (25MPTRE101), Manan Pan (24AIML024), Ansh Dhanani (24AIML006), Krish Singh (24AIML065), Nil Lad (24AIML020), Hitarth Khatiwala (24AIML019), Tirth Banderi (D25AIML081)	₹ 30,000

MOU Collaboration with Engineering Technique, Vadodara

The CHAMOS Matrusanstha Department of Mechanical Engineering, CSPIT, CHARUSAT, entered into a Memorandum of Understanding (MoU) with Engineering Technique, Vadodara to strengthen academia–industry collaboration and provide students with practical exposure to industrial practices and emerging engineering technologies. The collaboration aims to bridge the gap between academic learning and industry requirements through opportunities for technical training, expert interactions, internships, project guidance, and skill-development initiatives. The MoU will promote knowledge exchange and help students enhance their technical competencies, problem-solving abilities, and industry readiness. This collaboration marks an important step towards fostering industry–academia engagement and connecting theoretical knowledge with real-world mechanical engineering applications.

VISION

To become a leading institute for creation and dissemination of knowledge in the frontiers of technology.

MISSION

To prepare world-class technocrats and researchers and facilitate enhanced deployment of technology for betterment of lives.
